

SCS SUMMER MATH SUMMER SOLUTIONS

In an effort to keep math skills sharp over the summer, **SCS requires students rising into grades 2 through 8 to complete a summer math book.** The purpose of this summer math book is to keep students moving forward instead of backwards. It is designed to help students return to school after summer break confident and ready to master new skills.

The *Summer Solutions* book is **mandatory** for students rising into grades 2 through 8. **Students will receive a quiz grade of “100” in the first quarter for the completed book.** Credit will not be given to students who do not complete the book.

How to Order:

1. Go to www.summersolutions.net.
2. Click on “Order Now”.
3. **Enter the grade level that your child just completed.** *If you think a higher, more challenging grade level is appropriate, please discuss this with the current teacher before ordering.*
4. **Order the “Original Mathematics” book.** *The other books are optional.*
5. The book will ship directly to your home.

Thank you for partnering with us, as we foster a school where faith and knowledge meet.
