#### PARENT INFORMATION ABOUT MEDICATION PROCEDURES

- 1. In no case may any health, school, or staff member administer any medication outside the framework of the procedures outlined here.
- 2. Schools do NOT provide medications for student use.
- 3. Medications should be taken at home whenever possible. The first dose of any new medication must be given at home to ensure the student does not have a negative reaction.
- 4. Medication forms are required for each Prescription and Over the Counter (OTC) medication administered in school.
- 5. All medication taken in school must have a parent/guardian signed authorization. No medication will be accepted by school personnel without the accompanying complete and appropriate medication authorization form.
- 6. The parent or guardian must transport medications to and from school.
- 7. Medication must be kept in the school health office, or other principal approved location, during the school day. All medication will be stored in a locked cabinet or refrigerator, within a locked area, accessible only to authorized personnel, unless the student has prior written approval to self-carry a medication (inhaler, Epi-pen). If the student self carries, it is advised that a backup medication be kept in the clinic.
- 8. Parents/guardians are responsible for submitting a new medication authorization form to the school at the start of the school year and each time there is a change in the dosage or the time of medication administration.
- 9. A Licensed Health Care Provider (LHCP) may use office stationery, prescription pad or other appropriate documentation in lieu of completing Part II. - 12. The student is to come to the clinic or a predetermined location at the prescribed time to receive medication. Parents must develop a plan with the student to ensure compliance. Medication will be given no more than one half hour before or after the prescribed time.
